

# Zephyr, God of Freedom

Zephyr is a liberating deity who embodies the essence of personal freedom and individual rights. Their devotees advocate for civil liberties and human rights, ensuring that the people of the realm are protected from tyranny and oppression. They work to dismantle unjust laws and oppressive systems to ensure everyone's rights are upheld. They are the only aspect that meddles in civil laws. A ruler dreads the arrival of their acolytes. For where Zephyr enters, regime change is sure to follow.
